PRESS RELEASE

Logicorps Receives IT Services Contract Renewal from ITC Holdings Corporation
Companies continue successful IT Services Relationship

Clinton Township, MI – February 10, 2009 – IT managed services provider, Logicorps, is pleased to announce today that the company has been awarded contract renewal with Novi-based ITC Holdings Corp., the US's first fully-independent for profit electric transmission company. Since 2003, Logicorps has provided essential Information Technology products, services, and consultation to ITC Holdings Corp.   Over the course of the last six years, Logicorps's relationship with the company has grown into a technology outsourcing partnership that has leveraged Logicorps as a key architect of processes and technology that support ITC Holdings' business growth.

Logicorps currently manages most of the IT hardware, software, and processes for ITC Holdings Corp., and its operating subsidiaries in Michigan and Iowa and maintains an on-site staff of qualified, industry certified technicians to handle the day to day operations and helpdesk services to the Novi headquarters user community and Iowa location.

In addition to the daily IT maintenance and operations, Logicorps also specifies, recommends, and implements many special IT projects including:

- Network design and architecture
- Government compliance procedures relating to the Sarbanes-Oxley act and the North American Electric Reliability Council Cyber Security Standards
- Storage Area Network implementation and management
- Back up and disaster recovery solutions

"We are pleased to continue our relationship with Logicorps," said Denis DesRosiers, Vice President of IT and Facilities and CIO for ITC Holdings Corp. "Their expertise has provided the support required for ITC's rapid growth in Michigan and Iowa. The transmission business has unique security, technology, and communication needs, which Logicorps is well suited to meet."

"This contract renewal exemplifies our recent successes in internal process improvements that support our dedication to proactively managing IT systems and thereby supporting the growth of ITC Holdings Corp," said Scott Wiederhold, President and CEO of Logicorps.
